Campfire® has been America's premium brand since 1917. Campfire's® patented formula is the whitest, fluffiest marshmallow available. Compare to other brands and see/feel/taste the difference. See how nicely Campfire® Regular-sized Marshmallows roast over a fire for that All-American treat. You'll love how Campfire® Miniatures easily melt into your favorite recipes. And Campfire® Fruit Flavored Miniatures in orange, lemon, strawberry and lime are always a favorite. Remember, all types of Campfire® Marshmallows are great as a quick, easy and delicious snack.

Rocky Mountain Marshmallows™ are a true American tradition. The light texture and unique flavor make American-style marshmallows distinctly different than marshmallows made elsewhere in the world. Rocky Mountain Marshmallows™ is one of the leading U.S. marshmallow brands sold outside of the United States. Rocky Mountain Marshmallows™ has secured the #1 position as the top U.S. marshmallow in many markets.

The American Marshmallow Company

Doumak
SINCE 1921

**Doumak is the leading exporter of
America's finest marshmallows.**

**American made marshmallows are distinctive from
marshmallows made anywhere else in the world.**

Real, American-made marshmallows have a light, fluffy texture,
a unique vanilla flavor, and cook perfectly over an open fire.

A great American tradition is toasting marshmallows over a campfire
or a fireplace. There is nothing quite like a classic American-made
marshmallow with the outside toasted to a golden brown and the
inside a gooey delight.

These soft, fluffy treats can also be enjoyed in hot drinks, in many
delicious confectionary recipes, and straight out of the bag as a
quick snack.

If you're looking for the great American marshmallow,
look to Doumak, *The American Marshmallow Company*.

Doumak Inc. began its marshmallow-making journey in 1921.
In 1954, the Doumakes family invented and patented the extrusion
process of manufacturing marshmallows. This break through innovation
allowed the mass production of marshmallows in a fast, cost-efficient
manner. In 1961, Doumak moved to its current location outside of
Chicago, IL and has been growing ever since. We opened our second
state of the art manufacturing facility in Chicago in 2003. Our process
is highly automated with careful quality controls at each step.
We continue to invest in our facilities to remain on the
cutting edge. Doumak's success and longevity is due to
manufacturing the best quality marshmallow in the
world, providing excellent customer service, and
standing behind our products in every way.
